SOLAR FEED-IN TARIFFS 2017/18

Tuesday, 9 May 2017
1:36:30 PM

Dear IPART,

I write in support of:

- * A fair price for solar
 - * That feed-in tariff should increase in line with the wholesale price of electricity;
 - * The feed-in tariff should not just be a benchmark range, it should be regulated so retailers have to offer it as a minimum;
 - * The feed-in tariff should represent the true value of solar, this means recognising the environmental and health benefits and the network benefits of rooftop solar.
- * I made a substantial investment in rooftop solar to do my bit for the environment. It galls me that my electricity retailer on sells the excess electricity I produce at four time the rate they pay me. That being six cent per KWH. This is unjust.

Kind regards
Geoff Brown
