

SUBMISSION TO IPART REVIEW
SOLAR FEED-IN TARIFFS 2017/18

Tuesday, 9 May 2017
2:15:21 PM

The current tariff for solar power paid by power companies is grossly unfair where they are ripping off those of us who have invested in solar power. The tariff should be tripped or at least doubled. These companies do not have the right to effectively steal from those of us who have invested in solar power to our benefit, the country's benefit and that of the environment.

Yours faithfully

Glenn Campbell
