SOLAR FEED-IN TARIFFS 2017/18

Friday, 19 May 2017

1:55:27 PM

A fair price for solar is obviously the same price as we are charged. Logically 1 kw is equal to 1k regardless of where it comes from. It does the same work and we are being fooled to pay more than what we receive. This is how it started with my electricity company reimbursing me when I first started generating. Take note of the extras we are also paying such as daily charges!

Thanks you - be fair!
