**SOLAR FEED-IN TARIFFS 2017/18**

**Friday, 19 May 2017**  
12:10:11 PM

I support a fair price for solar and think that the feed-in tariff should increase in line with the wholesale price of electricity. The feed-in tariff should not just be a benchmark range, it should be regulated so retailers have to offer it as a minimum. Also the feed-in tariff should represent the true value of solar, this means recognising the environmental and health benefits and the network benefits of rooftop solar.

Regards,  
Gwen Channer
