SOLAR FEED-IN TARIFFS 2017/18

Tuesday, 9 May 2017
4:03:56 PM

To IPART, we request that you support a fair price for solar, the the feed-in tariff should increase in line with the wholesale price of electricity, that this feed-in tariff should be regulated so retailers have to offer it as a minimum, that this tariff should represent the true value of solar (environmental, health and network benefits). Our feed-in tariffs have dropped dramatically since we installed solar several years ago, but electricity prices have increased exponentially.
