

SUBMISSION TO IPART REVIEW
SOLAR FEED-IN TARIFFS 2017/18

Wednesday, 10 May 2017
8:26:31 AM

I welcome the opportunity to make a submission in regards to solar feed-in tariff and would like to make the following points:

I strongly support a fair price for photo voltaic energy production and an increase of the feed-in tariff in line with the wholesale price of electricity.

The feed-in tariff should not just be a benchmark range but should be regulated so retailers have to offer it as a minimum.

The feed-in tariff should represent the true value of solar, this means recognising the environmental and health benefits of rooftop solar production.

Yours faithfully,

Gabriela Mueller
