SOLAR FEED-IN TARIFFS 2017/18

Tuesday, 9 May 2017
11:22:16 AM

I fully support the increasing of the solar feed in tariff by at least as much as proposed.

Even at 11-14c it will still be significantly below the 30+c price of electricity charged by energy providers for electricity from the grid.

Have a look at this..<https://cleantechnica.com/2017/04/28/australian-comedian-tom-gleeson-skewers-ridiculous-electricity-business-model/>
