SOLAR FEED-IN TARIFFS 2017/18

Friday, 19 May 2017

2:13:30 PM

Congratulations on your proposal to increase the NSW solar feed-in tariff benchmark! As an owner of a solar system that feeds to the grid, we would feel better supported in assisting this country to move towards more renewable energy. This would also encourage others to consider installing solar systems who believe the current feed-in tariff is not very fair compared to how much energy companies charge for the price of energy.

In your proposal to increase this benchmark, would you also consider regulating this across the sector to ensure that energy companies are offering this new feed-in tariff as a minimum?

Kind regards,

Gemma
