

SUBMISSION TO IPART REVIEW
SOLAR FEED-IN TARIFFS 2017/18

Tuesday, 9 May 2017
11:05:15 AM

It is time that electricity retailers paid for the free power that they obtain from rooftop solar. Retailers can make effective use of this resource and a feed in tariff should be aligned with the current wholesale price of electricity.

The feed in tariff should be regulated by IPART with all retailers being obligated to pay the regulated feed in tariff as a minimum. The feed in tariff should also recognize the environmental benefits of roof top solar.
