SOLAR FEED-IN TARIFFS 2017/18

Tuesday, 9 May 2017
10:45:59 AM

Please consider increasing themselves for feed in tariff for rooftop solar in line with the wholesale price for electricity.

Not only would this give owners a fair return for their investment in solar panels but may also encourage more investment in electricity generation by this method. More investment in decentralized energy production can only be better for energy security and the environment.⁸⁷
