Submission: "IPART should support a fair price for solar;

"It's not fair to punish solar owners who are helping bring down the price of electricity for all NSW energy users;

"Last year more than half of the retailers in NSW failed to offer a FiT within the benchmark range. The FiT needs to be regulated and mandated so that the retailers have to offer it as a minimum;

"The feed-in tariff should represent the true value of solar, which means recognising the environmental and health benefits and the network benefits of rooftop solar; and

"I have panels and a battery working well."
