SOLAR FEED-IN TARIFFS 2017/18

Tuesday, 9 May 2017
11:08:40 AM

I support a fairer price for my solar power. I spent a lot of money on a 3kw system, if I dont get a reasobable price I willhave to go off grid completely to be able to afford power. At present I get 7cents and Ive been lied to as I was told I already have a net meter but I've since found out independently that I dont have one and now nobody is doing anything about it and I'm a pensioner with very little income!! Its all very unfair, confusing and frustrating!! This country is all for big business and let the people eat cake! Please do something to help support people who look out for the environment.
