SOLAR FEED-IN TARIFFS 2017/18

Tuesday, 9 May 2017

5:55:41 PM

I support a fair price for solar feed-in tariff to be paid to owners of roof top solar panel installations feeding electricity into the grid.

The feed-in tariff should recognise the environmental and health benefits of solar energy and encourage more Australians to invest.

The feed-in tariff should be set as a minimum so that retailers have to offer at least that amount to those who are contributing to the grid. This amount should increase in line with the wholesale price of electricity.
