SOLAR FEED-IN TARIFFS 2017/18

Tuesday, 9 May 2017
2:55:55 PM

Please lock in the increase in solar feed in tariffs in NSW, to ensure that individuals who supply clean energy to NSW receive a fair return for their capital investment in solar panels. This investment is a significant one considering it is by a single household and should receive the same recognition the the power companies investments receive. This policy would provide an incentive for even more households to make that investment in clean, renewable energy for our state.
