SOLAR FEED-IN TARIFFS 2017/18

Tuesday, 9 May 2017
9:16:26 PM

I support a fair price for solar and, therefore, believe that the feed-in tariff:
• should increase in line with the wholesale price of electricity
• should not just be a benchmark range, it should be regulated so retailers have to offer it as a minimum
• should represent the true value of solar, this means recognising the environmental and health benefits and the network benefits of rooftop solar.
