SOLAR FEED-IN TARIFFS 2017/18

Saturday, 20 May 2017

10:13:49 AM

I support a fair price for solar in NSW. The tariff needs to be regulated and be in line with the wholesale price of electricity. I feel that we were conned into installing solar panels. The 7 years gave us time to pay off the original cost of installation, only to find that we are now paying a high cost to electricity providers ... For the electricity we produce. The amount that they pay us is a pittance. NOT HAPPY.
