

**SUBMISSION TO IPART REVIEW**  
**SOLAR FEED-IN TARIFFS 2017/18**

**Sunday, 21 May 2017**

1:07:34 PM

I support a fair price for solar - if people were encouraged to get solar and be able to feed back into the grid, it would do so much for reducing Australia's greenhouse emissions.

The feed-in tariff should increase in line with the wholesale price of electricity - why should retailers get all the profits from increases?

It should be regulated so retailers have to offer it as a minimum and it should represent the True Value of solar - recognising the environmental and health benefits.

Sincerely,

**Jenny Cottle**
