SOLAR FEED-IN TARIFFS 2017/18

I support a fair price for solar.

The feed-in tariff should be increased in line with the wholesale price of electricity.

The feed-in tariff should not just be a benchmark range, it should be regulated so retailers have to offer it as a minimum.

The feed-in tariff should represent the true value of solar, this means recognising the environmental and health benefits and the network benefits of rooftop solar.
