

SUBMISSION TO IPART REVIEW
SOLAR FEED-IN TARIFFS 2017/18

Tuesday, 9 May 2017
10:39:51 AM

The IPART proposal offers a more sensible pricing policy for solar feed-in tariff than the present rip-off. What other industry is entitled to buy at 6 cents and sell at around 650% profit? The feed in tariff should also increase with increases in the wholesale price and should be regulated. The IPART proposal needs to be implemented now.
