

**SUBMISSION TO IPART REVIEW**  
**SOLAR FEED-IN TARIFFS 2017/18**

**Thursday, 11 May 2017**  
11:14:15 AM

While I welcome the recommendation by IPART to increase the feed in tariff on solar, it does not go far enough. The recommended tariff should be set as a mandatory price for retailers to pay and in my opinion raised to reflect the value that solar truly represents in terms of health and environmental benefits.
