

SUBMISSION TO IPART REVIEW
SOLAR FEED-IN TARIFFS 2017/18

Friday, 12 May 2017

9:01:04 AM

I support a fair price for solar. The amount I am receiving now is disgraceful. The idea was to encourage sustainable power and we are now being punished for doing this. The solar price should be inline with the price of wholesale electricity. There is no incentive now for anyone to go solar.
