Submission: "I support a fair price for solar because;

- Solar owners are helping bring down the price of electricity for all NSW energy users.
- last year more than half of the retailers in NSW failed to offer a FiT within the benchmark range.
- the FiT needs to be regulated and mandated so that the retailers have to offer it as a minimum.
- the feed-in tariff should represent the true value of solar, this means recognising the environmental benefits, and the network benefits of rooftop solar to everyone.
- many retailers are doing the right thing, some are paying 12 - 16 c/kW, this good behaviour should be reinforced."
