SOLAR FEED-IN TARIFFS 2017/18

Tuesday, 9 May 2017
12:02:52 PM

I support the increase in the NSW solar feed - in tariff, a fair price is very important to encourage more to use solar power, it should be regulated so retailers have to offer it as a minimum. The feed in tariff should represent the true value of solar, this means recognising the benefits of environmental and health advantages and the network benefits of all rooftop solar.
