SOLAR FEED-IN TARIFFS 2017/18

I realise that the 60c/kWh previously paid was over-generous but I support a fair feed-in tariff for solar and 6 cents is ridiculous particularly when AGL charge about 80 cents per day for you to be on the grid to feed the power to them. They then on-sell this from 26cents upwards to perhaps my neighbour. Surely they should pay me closer to 20 cents per kWh.
