**SOLAR FEED-IN TARIFFS 2017/18**

**Friday, 19 May 2017**

3:27:48 PM

I am on a pension and bought my solar system to defray the high cost of electricity. Since the government discontinued the solar rebate scheme it is very clear power companies are gouging their customers with solar. It is high time the government intervened and required these companies to purchase solar energy from roof top solar at a much fairer price
