

**SUBMISSION TO IPART REVIEW**  
**SOLAR FEED-IN TARIFFS 2017/18**

**Sunday, 21 May 2017**

2:06:00 PM

6 c per kw/hr is nothing short of a rip off and does nothing to encourage consumers to inststall clean energy devices and makes them uneconomic. The Goverment has been extremely ignorant and even with the existing solar subsidiary it does not acknowledge that it would take many years to recoup the cost at 6c per kw/hr.
