

SUBMISSION TO IPART REVIEW
SOLAR FEED-IN TARIFFS 2017/18

Friday, 19 May 2017

12:55:10 PM

At present you are cheating people who have a long term view of energy supply. Coal etc will be dead within 30 years, so you should be encouraging your citizens to use solar or other renewable energy sources. Certainly what you pay us should keep pace with wholesale energy prices, but there should also be a bonus for moving to renewable sources.
