**SOLAR FEED-IN TARIFFS 2017/18**

Dear IPART, please take into account:

\*The feed-in tariff should increase in line with the wholesale price of electricity;

\*The feed-in tariff should not just be a benchmark range, it should be regulated so retailers have to offer it as a minimum;

\*The feed-in tariff should represent the true value of solar, this means recognising the environmental and health benefits and the network benefits of rooftop solar.

Thank you for your considerations

Regards

Joseph Kramlik
