

SUBMISSION TO IPART REVIEW
SOLAR FEED-IN TARIFFS 2017/18

Wednesday, 10 May 2017

4:42:39 PM

Submission:

- 1) We support a fair price for roof top solar and believe that the feed-in tariff should increase in line with the wholesale price of electricity.
- 2) Retailers should be regulated to ensure they offer prices at or above the minimum set by regulation.
- 3) Roof top solar, being renewable, offers long term environmental benefits - and probably health benefits - to all Australians and should be properly supported.

Thank you,

Jack and Michele Miller
