**SOLAR FEED-IN TARIFFS 2017/18**

**Tuesday, 9 May 2017**  
5:39:35 PM

The abject failure of successive governments to protect consumers from the avarice of power companies needs rectifying. At least, the feed-in tariff should match the wholesale price of electricity. Whilst recent governments have been insipid in their actions to minimise global warming, to allow the ongoing gouging by these power companies of Australian citizens who have taken steps to reduce the impact of fossil fuels is shameful.
