**SOLAR FEED-IN TARIFFS 2017/18**

**Tuesday, 9 May 2017**

9:29:31 PM

1. A 500% mark-up for solar is forcing me to go off grid. I will remain on grid at 15c per kWh.
2. I have written to my local State MP pointing out that the meter box rental requires an 8kW solar system just to break even (at 6c per kWh). This a loophole for energy providers which should be closed
3. The feed-in tariff should be closely tied to the average quarterly price of wholesale electricity.
