**SOLAR FEED-IN TARIFFS 2017/18**

**Tuesday, 9 May 2017**  
10:21:57 AM

The feed-in tariff should increase in line with the wholesale price of electricity and be regulated to make a standard minimum price. Both consumers and industry need certainty in fairness of price. Stability in the system would be greater served by consumers like me being able to play a part.
