

**SUBMISSION TO IPART REVIEW**  
**SOLAR FEED-IN TARIFFS 2017/18**

**Tuesday, 9 May 2017**  
4:35:20 PM

We, as rooftop solar owners, fully support the proposal by IPART to significantly increase the NSW solar feed-in tariff in line with the wholesale price of electricity. We feel that it is only fair to offer the proposed price as a minimum figure that more truly reflects the value of solar in environmental and community terms.

Although we have been happy to contribute much spare electricity to the grid for the general good, it has been clear that the supplier, which is not an Australian-owned company, has been benefitting financially from that power, without paying a fair feed-in price, and the above adjustment (at least) would certainly make battery storage likely sooner.
