SOLAR FEED-IN TARIFFS 2017/18

Friday, 19 May 2017

2:27:03 PM

I can understand why the FIT can not be the same as the Retail price for electricity, but it should be higher than 6 cents.

A higher price will encourage more people to install Solar Panels on their roof because the pay-back period will be reduced dramatically.

I have 2kW system on my roof and I would like to add to that either with more solar panels or with batteries.
