Dear Sirs,

Releasing a paper recommending retirement villages and residential care centres to pay council rates, gee whoever thought this one up to attack the elderly must feel real proud of themselves.

IPART independent = not adhering to any political party, truer words never spoken. NEVER have I seen or read of any papers recommending members of parliament to perhaps give up the perks they have e.g. living away allowances I believe \$237.00 per night, unemployment benefit \$236.00 per week.

Just one of many things IPART could look at, but it is not the same as attacking the elderly, some are war widows trying to live out the rest of their lives in peace. But it seems to people like yourselves (and I use the word people very loosely) to abuse the last of their years gives you some enjoyment.

As the old drunk used to say : shame, shame, shame.

I will sign my name, but there will be no regards,

John Ryan
