**SOLAR FEED-IN TARIFFS 2017/18**

**Friday, 19 May 2017**

6:14:44 PM

The feed in tariff for solar needs increasing. I believe we should be paid at least 25 cents a kilowatt hour or 90% of the current kilowatt hour presently paid. Please give the solar rooftop collective a fair go - it is after all clean power. Thank you for your attention.
