SOLAR FEED-IN TARIFFS 2017/18

Tuesday, 9 May 2017
3:41:45 PM

I support a fair price for solar which should increase in line with the wholesale price of electricity. Currently we do not receive a fair price at about one quarter of the wholesale price. The feed-in tariff should be regulated so retailers have to offer it as a minimum. It should represent the true value of solar, which means recognising its environmental and health benefits and the network benefits of rooftop solar. Please take action to mandate an increase in the feed-in tariff so that it recognises the true benefits of rooftop solar.
