**SOLAR FEED-IN TARIFFS 2017/18**

**Friday, 19 May 2017**

12:50:21 PM

I fully support the increase for solar feed-in-tariff. I am receiving only 5.4c per Kwh at the present time. I believe that it should go up to 11.6-14.6cper Kwh. That is a much fairer amount to be paid by the energy companies as they get the benefit of receiving solar to their energy.
