

SUBMISSION TO IPART REVIEW
SOLAR FEED-IN TARIFFS 2017/18

Friday, 19 May 2017

7:19:27 PM

Dear IPART Committee,

Please adjust the solar feed-in tariff to be more equitable between solar panel home owners like my household and the electricity suppliers.

The feed-in tariff should increase in line with the wholesale price of electricity.

Please increase the tariff.

Adopting solar power should be encouraged to help reduce Greenhouse gases from the burning of fossil fuels and increasing the tariff will help this.

Kate Consterdine
