

**SUBMISSION TO IPART REVIEW**  
**SOLAR FEED-IN TARIFFS 2017/18**

**Friday, 19 May 2017**

3:22:21 PM

You will be forcing people off the grid and revenue for power suppliers will fall dramatically. We supplement the electricity supply in NSW and accordingly should be paid the wholesale price so that electricity wholesalers can on-sell the electricity and still receive a profit.

As with all petitions, it comes with a warning. Should you fail to address this social injustice prior to the next election than Solar voters will let the public know that we are being ripped off by a corrupt government who curtail themselves to the electricity providers. Negative as that is - it is the truth.

Kindest Regards,  
Kevin Dodds
