**SOLAR FEED-IN TARIFFS 2017/18**

**Friday, 19 May 2017**

2:50:16 PM

To IPART

I support an increase in the feed in tariff to make it a fairer price for solar roof top systems. The tariff should increase in line with the price of electricity. The feed in tariff should be regulated not voluntary so it sets a minimum for retailers. The feed in tariff should represent the true value of solar systems including the environmental and health benefits.

Regards

Kevin Gabriel
