SOLAR FEED-IN TARIFFS 2017/18

Friday, 19 May 2017

7:13:28 PM

I support a fair price for solar feed-in tariff to householders.

The feed-in tariff should increase in line with the wholesale price of electricity.

The feed-in tariff should not just be a benchmark range, it should be mandatory and regulated, so retailers have to offer it as a minimum.

The feed-in tariff should represent the true value of solar, this means recognising the environmental and health benefits and the network benefits of rooftop solar.
