SOLAR FEED-IN TARIFFS 2017/18

Wednesday, 10 May 2017

7:12:47 AM

The feed-in tariff should increase in line with the wholesale price of electricity;
The feed-in tariff should not just be a benchmark range, it should be regulated so
retailers have to offer it as a minimum;
The feed-in tariff should represent the true value of solar, this means recognising
the environmental and health benefits and the network benefits of rooftop solar;
and
any personal examples about your solar systems and experiences with the feed-
in tariff.
