

SUBMISSION TO IPART REVIEW
SOLAR FEED-IN TARIFFS 2017/18

Tuesday, 9 May 2017
2:46:17 PM

I am grateful that IPART has recommended an increase of the NSW solar feedin tariff to benchmark the wholesale price of electricity. I believe the tariff should recognise the environmental contribution of we owners of house proof solar and that our reward should continue to be increased in line with the wholesale price of electricity. I am concerned that it should be regulated so that retailers must offer the same price as their wholesale cost of electricity. We are doing our bit. Why can't our contribution be recognised on par with the supply by power providers? Thank you for your support.
