SOLAR FEED-IN TARIFFS 2017/18

Saturday, 20 May 2017

7:12:39 AM

People who have invested in solar energy have invested in Australia's environment and ecology. We should be given a reasonable price for the solar energy we feed in. We are making a valuable contribution that at present is not keeping up with wholesale prices of electricity nor does it represent the true value of solar. This needs to be addressed immediately.
