

**SUBMISSION TO IPART REVIEW**  
**SOLAR FEED-IN TARIFFS 2017/18**

**Saturday, 20 May 2017**

7:06:37 PM

Here is a brief summary of points I'd like to make in support of NSW having a fair price for solar:

- Firstly I (and many, many others in the Blue Mountains community) support a fair price for solar.
- The feed-in tariff should increase in line with the wholesale price of electricity.
- The feed-in tariff should not just be a benchmark range, it should be regulated so retailers have to offer it as a minimum.
- The feed-in tariff should represent the true value of solar (i.e. it should recognise the environmental and health benefits plus the network benefits of rooftop solar.

Thanks for the opportunity to make a submission, and for IPART's initial proposal to get the conversation going on this critical matter.

Regards,

Kirsty
