Submission: "We are beholden to big business. They can do and charge whatever they like. Petrol is a good example. When oil prices were at about \$130+ we were paying about \$1.00 at the pump. Now oil is \$63 we are now paying in excess of \$1.40. Makes me very angry, and we have no choice but to get ripped off by companies whose world is dedicated to greed. They are morally and ethically bankrupt."
