

SUBMISSION TO IPART REVIEW
SOLAR FEED-IN TARIFFS 2017/18

Sunday, 14 May 2017
11:36:37 AM

I'm making this submission wanting to achieve a fair price for solar systems, i.e. to be in line with the wholesale price of electricity and not just be a benchmark price.

The true value of solar should be recognised and supported.

We have serious environmental and health and health issues to be recognised here.

Thank you

Lenny Burgess
