**SOLAR FEED-IN TARIFFS 2017/18**

**Friday, 19 May 2017**

3:43:15 PM

We are generating solar electricity ; we would like to receive a much fairer price, a price that is a lot closer to the wholesale price of electricity. We ask the NSW government to require a regulated feed in price from retailers, for we the solar generators. We have made an investment in generating electricity not only for our own benefit but for the benefit to the environment. Currently the price we are receiving of 6.1 c per kWh is a very unfair price. We are having to buy electricity at 27.19 c per kWh. Fair go please !
