

SUBMISSION TO IPART REVIEW
SOLAR FEED-IN TARIFFS 2017/18

Wednesday, 10 May 2017
7:01:56 AM

To whom it may concern,

As aged pensioners my husband and I would benefit greatly from a fair price for solar. The feed-in tariff should increase in line with the wholesale price of electricity and should not just be a benchmark range it should be regulated so that retailers have to offer it as a minimum.

We had solar added to our house because of the positive environmental aspects of having it and feel cheated that there is not a fairer system.

Yours sincerely

Loretta Dunn
